

## Wanos Appliance 255

| Hardware Specifications |   |
|-------------------------|---|
| All features enabled    | 20 Mbps                                   |
| Compression Only        | 100 Mbps                                  |
| QoS Throughput          | 100 Mbps                                  |
| Max Peers               | 8-16 Recommended                          |
| CPU                     | Intel C2558                               |
| CPU Type                | 4 CPU Cores                               |
| Memory                  | 8GB DDR3                                  |
| Storage                 | 128 GB SSD                                |
| Interfaces              | 4x Intel GbE 1x Bypass Pair               |
| Cooling                 | Fans                                      |
| Local Access            | USB, Console                              |
| USB Ports               | 2x 2.0 ports                              |
| Dimensions              | 18.5cm x 4.4cm x 13.7cm                   |
| Case                    | Desktop – Rack kit available              |
| Environment             | 0°C to 60°C                               |
| Power Consumption       | <=60W (idle)                              |
| Power                   | External PSU, 100~240V, 50-60Hz           |
| Hardware Warranty       | 1 year standard, optional 3 year extended |

### About Wanos

Wanos is network software appliances that make bandwidth cost reduction and acceleration technology accessible to all networks. Persistent and universal deduplication, quality of service and compression are the technologies that work together to increase data transfer efficiencies and ultimately cost savings.

## Wanos Features

| Features                     |   |
|------------------------------|---|
| Persistent Deduplication     | ✓ |
| Cross Protocol Deduplication | ✓ |
| Bidirectional Optimization   | ✓ |
| Inline Compression           | ✓ |
| Quality of Service           | ✓ |
| Network Traffic Graphs       | ✓ |
| Session Optimization Stats   | ✓ |
| Per Site Optimization Stats  | ✓ |
| Web Graphical User Interface | ✓ |
| System Dashboard             | ✓ |
| Bridge Appliance             | ✓ |
| MultiSite                    | ✓ |
| NetFlow                      | ✓ |
| SNMP                         | ✓ |
| Hardware Bypass              | ✓ |
| Out of Path                  | ✓ |
| Protocol Agnostic            | ✓ |
| Peer Auto Discovery          | ✓ |
| Auto Failover                | ✓ |
| Top Protocols                | ✓ |
| Packet Loss Recovery         | ✓ |
